Summary

Experienced Full-Stack Web Developer with a proven record of delivering results in the software industry. Skilled in React, JavaScript, Node, Express, and Python. Innovative problem solver known for creating cutting-edge web applications. Demonstrated strengths in creativity, teamwork, and project development from ideation to execution.

Technical Skills

Programming: React, Node.js, MongoDB, Express, Tailwind, Python, SQL

Tools: Agile, Jira, Figma, Mural

Education

Software Engineer | 100 Devs BootCamp, San Jose, CA | January 2023 - August 2023

- Designed and developed 10+ modern, scalable web applications individually and as part of global teams ranging from 2 to 15 developers, resulting in sophisticated, high-quality websites.
- Implemented Agile methodologies like SCRUM for project management.

Experience

Dental Hygienist | Various Locations: Gilroy, CA; San Luis Obispo, CA; Boulder, CO | June 2014 - Present

- Doubled productivity through strategic workflow optimization, leading to increased client acquisition, retention, and overall company growth.
- Cultivated a personal brand that attracted and retained a diverse clientele.
- Identified and mitigated infectious disease risk factors, implementing preventative measures to reduce risks and unnecessary clinical utilization.
- Consistently delivered exceptional results in a fast-paced dental office environment, both as a team member and a leader.

Projects

Smile Supply - smilesupply.net

- Spearheaded an innovative full-stack inventory tracking system with a user-friendly interface for dental offices, enabling effortless product inventory management.
- Developed a cutting-edge algorithm for precise tracking of usage patterns and timely automatic reordering, reducing costs by preventing product wastage.

Worth-A-Watch - github.com/Dunder-Mifflin-Devs/GoodReadsForTV (In Progress)

- Collaborated with a team of 15 developers.
- Agile SCRUM methodologies, including sprint planning and retrospective meetings.
- Utilized Jira to create a backlog, gather velocity information, and test and deploy application tickets.

Victoria's Mexican Restaurant - victoriasrestaurantgilroy.com

- Worked with a client to develop a static webpage, using semantic HTML and SEO best practices to increase traffic and attract new customers to an established local business.

Denta Clinic - dentaclinic.netlify.app

- Designed a fully responsive website with integrated booking systems, email newsletter capabilities, and customer support to enhance user convenience and showcase a modern interface.

Volunteering

The Alliance | 2022-Present

- Led two separate Men's groups focused on helping individuals overcome personal obstacles, including grief, family dynamics, career coaching, and personal growth.
- Aimed to foster a community of men who can become leaders in their communities and family systems.
