Summary

Experienced Full-Stack Web Developer with a proven record of delivering results in the software industry. Skilled in React, Node.js, Express, MongoDB, and Python. Known for innovative problem-solving and creating cutting-edge applications. Strong in customer acquisition, retention, teamwork and Agile project management

Technical Skills

Programming: React, Node.js, MongoDB, Express, Python, SQL, Jest
Tools: Agile, Jira, Figma, Mural

Education

Software Engineer | 100 Devs BootCamp, San Jose, CA | January 2023 - August 2023
- Designed and developed 10+ modern, scalable web applications individually and as part of global teams.
- Implemented Agile methodologies like SCRUM for project management.

Experience

Dental Hygienist | Various Locations: Gilroy, CA; San Luis Obispo, CA; Boulder, CO | June 2014 - Present
- Doubled productivity through strategic workflow optimization, leading to increased client acquisition, retention, and overall company growth.
- Cultivated a personal brand by providing exceptional customer service, being detail-oriented, fostering genuine relationships over many years, which resulted in attracting and retaining a clientele of hundreds.
- Identified and mitigated infectious disease risk factors, implementing preventative measures to reduce risks and unnecessary clinical utilization.
- Consistently delivered exceptional results in a fast-paced environment, as a team member and as a leader.

Projects

Smile Supply - smilesupply.net
- Created an innovative full-stack dental inventory tracking system with a user-friendly interface.
- Developed a cutting-edge algorithm for precise tracking of usage patterns and timely automatic reordering, reducing costs by preventing product wastage.

Worth-A-Watch (In Development) - github.com/Dunder-Mifflin-Devs/GoodReadsForTV
- Collaborated with a team of 15 developers on frontend and backend development using Git and GitHub.
- Agile SCRUM methodologies, including creating stories from both a developer and user perspectives, sprint planning, internal sprint reviews and retrospective ceremonies.
- Utilized Jira to create a backlog, gather velocity information, deploy tickets, and Jest for unit testing.

Victoria's Mexican Restaurant - victoriasrestaurantgilroy.com
- Worked with a client to develop a single page application (React), using semantic HTML and SEO best practices resulting in increased traffic and new customers acquisition to an established local business.

King Motors - king-motors.netlify.app
- Meticulously crafted E-commerce website that utilizes cart functionality and integrated booking system.

Volunteering

The Alliance | 2022-Present
- Led two separate Men's groups focused on helping individuals overcome personal obstacles, including grief, family dynamics, career coaching, and personal growth.
- Demonstrated leadership in supporting personal growth and development.
